PT6A ENGINE TESTING

Craftsmanship / Value / Customer Service

PT6A ENGINE TESTING

Prime Turbines is committed to delivering reliable, affordable engines that perform on wing. Our state of the art, computerized Pratt & Whitney Canada correlated test cell ensures we test under accurately reproduced operational conditions.

Engine test capabilities include:

- Performance Testing and Analysis
- Endurance Testing
- Cross Correlation Test
- Troubleshooting / Fault Analysis
- Third-Party Engine Investigation
- Post-Lease Testing and Certification

Contact us today to experience the Prime Turbines difference.
