

PRESS RELEASE

Dallas, TX: June 5, 2012

Prime Turbines Opens Prime Turbines GmbH

Prime Turbines opened a new service center in Budenheim, Germany. Prime Turbines GmbH is an independent [EASA Part 145 approved](#) Maintenance Organization, specializing in field support of the Pratt & Whitney Canada PW100 family of engines. The team in Germany has over 65 years of hands-on PW100 experience. They offer superior quality and customer service to ensure a fast turnaround time. Contact Walter Eggers, General Manager, at wegg@primeturbines.com or +49 151 466 35547, or visit www.primeturbinesgmbh.com for a complete list of services.

Prime Turbines GmbH is part of the Killick Aerospace family of companies. The first [Prime Turbines](#) location opened in 1984 in Hyannis, MA. It added additional locations in Dallas, TX, and Pittsburgh, PA to offer complete overhaul services on the Pratt & Whitney Canada PT6A engine.
